

Uniweb debuted in 1970 becoming leaders in revolutionizing the Pharmacy and Retail fixturing industry.

Uniweb supports a progressive culture in their desire to design and build cost-effective adaptable, modular, and portable displays. Whether it's new construction or a renovation, Uniweb offers a complete line of American Made fixture solutions! Discover how Uniweb's customer-first philosophy, dedication to innovation and quality provides their customers with unmatched products and support, delivering more than just shelving.

The Uniweb System delivers a truly unique concept in merchandising. The all-steel panels consist of continuous horizontal channels, vertically spaced every inch. This allows for greater utilization of the display surface and broader flexibility in merchandise placement. Product facings are increased by a minimum of 17 to 25%, and in some cases up to 50%!! This extreme capitalization on space results in greater profits for retailers.

❧ Efficient Pharmacy ❧ Inspired Retail ❧ Detailed Modular Rooms ❧
Custom Laser Capabilities ❧ Innovative Millwork ❧ Mobile Consultation
❧ Installation Services ❧ Expert Design Team ❧

Unmatched durability and
functionality crafted to meet
your specifications

Maximum shelving and
accessory flexibility & efficiency
