

Uniweb Retrofit Panels

A Variety
of Uses

More Product Facings... More Profit! It's that Simple!

Variety Panel is an all-steel merchandiser with continuous horizontal channels and no upright interruptions; hooks can be placed over two panel seams! High concentration can dramatically increase product facings by 17 percent or more, which equals increased profit!

Allied Panel features a short insert hook welded directly to the panel, eliminating the need for insert brackets. Panels easily lock onto existing uprights, creating a clean, flush appearance. The panel can also be extended beyond the gondola height, creating additional merchandising space.

Insert Panel replaces old, torn, and inefficient pegboard panels. Simply remove pegboard and inset snugly into existing store uprights, permitting the use of existing shelving.

More importantly, the panels will **NEVER RIP OR TEAR!**

Easy to Install... Easy to Use... Easy to Order!

To Install: Simply attach the appropriate brackets, and then insert the panel into the existing upright system.

To Use: Hooks fit in without tilting and slide horizontally, allowing merchandising directly under shelves or flexibility in adjusting product without disturbing products.

To Order: Width fits standard 36" or 48" uprights at 6" increment heights. Specify insert bracket style; i.e. Lozier, Hussmann, Madix, etc. in lengths from 2" to 20". Choose a hook style and length to meet your needs.
